Short Description

Upgrade your Starlink setup with our Starlink Mini Hard Carry Case IP67 Waterproof Green.

Description

Built-In Waterproof DC Port for On-the-Go Power: Keep your Starlink Mini and essential accessories running without ever opening the case. The built-in waterproof DC female port lets you plug into a power station or battery from the outside—perfect for rain, dust or windy conditions. This carry-and-go hard case design is the core idea behind our GoCase concept: a field-ready protective case built to keep your Starlink Mini online wherever you take it.

IP67 Waterproof & Dustproof Protection: A full-perimeter sealing strip and secure latches give this Starlink Mini hard case and accessories IP67 waterproof protection, keeping your gear dry in rain, mud, snow and sand—ideal for RV travel, camping and remote outdoor work.

Custom-Fit EVA Foam for Starlink Mini & Accessories: Precision-cut, closed-cell EVA foam holds the dish, kickstand, power supply, accessories, pipes and cables tightly in place with zero rattling. Perfect for bumpy roads, off-grid trails and long-distance travel.

Rugged Hard Shell Built for Impact: Constructed with a reinforced hard shell and dense protective padding, this Starlink Mini case resists drops, pressure and daily wear—keeping your satellite internet kit protected wherever you go.

Portable Outdoor Design in Tactical Green: A sturdy built-in handle makes it easy to carry wherever you go. The tactical green design blends seamlessly with RV setups and outdoor gear—perfect for camping, hiking, boating, and emergency backup internet.
