## Short Description

Generate solar energy anywhere with our compact-designed panels. Fold away to store in your van or closet, pull them out in seconds to start using.

## Description

Capture more energy with a dual-sided design. With a 220W primary side, and a 175W side on the back for ambient light, you can capture up to 28% more solar energy and charge your portable power station even faster. With an IP68 waterproof rating, our NextGen 220W Bifacial Solar Panel maintains its high performance even when it's in contact with water. So you can recharge near a lake or take it out on your boat without worry!
